SUMMARY

Computer Science student focused on TypeScript/React and Node/NestJS. Built full-stack platforms with PostgreSQL + Redis, emphasizing scalable APIs, RBAC, and clean UI. Seeking Frontend/Backend/Software Engineering internships/new-grad roles.

EDUCATION

Seattle Pacific University *Sep 2025-Expected June 2027*
Bachelor of Science in Computer Science Seattle, WA

Shoreline Community College *Sep 2022 – June 2024*
Associate of Science in Computer Science Shoreline, WA

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C++, C#, SQL
Frameworks & Tools: Next.js, NestJS, React, Node.js, PostgreSQL, Redis, Git

PROJECTS

Ethiopian National Exam Prep Platform *In Development*
Full-Stack Web Application

- Architecting a full-stack exam preparation platform for Ethiopian students (Grades 9–12) with practice questions, timed mock exams, performance analytics, and leaderboards
- Implementing backend services with NestJS and PostgreSQL, leveraging Redis for caching to support 100,000+ concurrent users
- Building admin dashboard for question management and developing weak-topic detection algorithm to personalize study recommendations

DischargeLink – Healthcare Placement Platform *In Development*
Multi-Stakeholder Web Application

- Designing a multi-sided platform connecting hospitals, adult family homes, pharmacies, and patients to streamline post-discharge placement workflows
- Implementing role-based access control (RBAC) and secure data handling for HIPAA-adjacent healthcare workflows including referrals and medication coordination
- Engineering automated workflows to reduce manual coordination, improving placement efficiency across multiple healthcare entities

Workforce Management System *May 2025 – Present*
AFLAGAT Trading *Addis Ababa City Administration*

- Leading technical coordination for a workforce management system targeting 100,000+ government employees across multiple departments
- Collaborating with international development teams to integrate OKR framework, projecting 15% improvement in payroll efficiency

EXPERIENCE

Aflagat Trading – Founder *Jun 2024 – Present*
Tech Supply Import Business Addis Ababa, Ethiopia

- Founded and scaled import business managing end-to-end operations: procurement, logistics, and B2B/B2G client relations
- Secured government contracts through strategic networking and compliance with procurement regulations

LEADERSHIP

National Society of Black Engineers (NSBE) – Member Seattle Pacific University (Sep 2025 – Present)
